

Enjoy the great outdoors

Wellness Experience

Active Tour

Project Contents

In Shinshiro City, where various contents such as nature, sports, history, food, and hot springs are available, we have developed a special tour for inbound visitors to experience the secrets of Japanese longevity in the great outdoors. This tour is designed for participants to actively engage their entire bodies in the experience. Accompanied by experienced tour guides who are well-versed in the natural beauty and history of Shinshiro City, participants will explore the area using e-BIKES and SUP (Stand-Up Paddleboards). Through active experiences like e-BIKES and SUP, where the entire body is engaged, the senses are activated, and both physical and mental tension are released. Through these active experiences, participants will not only connect with nature and history but also have time to reflect on their own feelings, emotions, thoughts, and life. After the physical activity, participants can relax in hot springs, savor dishes made from local ingredients, and unwind. The heightened quality of sleep is also expected to be noticeable. The tour aims to provide an opportunity for participants to discover their true values and is referred to as a “Wellness Tour.”
